### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: A method is claimed for forming a device by flip chip bonding a two layer substrate to another substrate where the other substrate has an insulating layer, removing the substrate and leaving a relaxed layer and a strain layer and then forming a transistor. Also claimed is a method where the upper layer is removed and a layer is formed on the relaxed layer. Naruse show the formation of a stack of SiGe/Si on a first substrate and bonding that substrate to a second substrate with an silicon dioxide layer and then removing the first substrate. However, the remaining layers are Si, SiGe, Si and do not show the relaxed/strained relationship. Wu shows a similar process but the removal process leaves only a SiGe layer. Thus the claimed method is not shown in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas A Wille whose telephone number is (571) 272-1721. The examiner can normally be reached on M-F (6:15-2:45).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wael Fahmy can be reached on (571) 272-1705. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
